# Iris 101 - Hybridizing

Everything you need to know about hybridizing irises

Join Patrick as he shows you the ins, outs, and secrets of hybridizing irises. Learn a little bit about genetics, some hybridizing strategies, and the physical steps necessary to successfully hybridize an iris.

- ⇒ June 11 – We will cover everything you need to know about pollinating a flower. You will get hands-on practice and will be able to make a minimum of three of your own crosses.
- ⇒ September 8 – We will harvest the seeds created by your crosses and plant them in seed starter trays, giving them the best opportunity for successful germination.

This is a two session class. The \$40 cost includes both sessions and all supplies you will require. Do not wait to register. This class is going to fill up quickly!

*While we will do our best to ensure success, we cannot guarantee the crosses you make will take. In the event of failure, you will still receive seeds from Patrick's crosses to plant.*

## Dates

### June 1, 2019

#### Selecting and Hybridizing the Irises

8:00am – 11:00 am

Lecture, Demonstration, and Hands-on Activities.

Classes will be cancelled if it rains, as water and pollen do not mix. We will reschedule if possible, or refund all class fees.

### September 21, 2019

#### Harvesting and Planting Your Seeds

1:00pm – 3:00 pm

Lecture, Demonstration and Hands-on Activities.

**Class size limited to 10 people.**

**The cost is \$40 per person for both sessions.**

**All supplies will be provided.**
